Course ID: 950c8719-d3ed-4757-9a9a-03a02d33f0e1

Analysis ID: 233bd632-0636-43f4-8e3b-10f152f2fe78

Generated At: 2026-02-21T07:46:36.663Z

Overall Score: 50/100

Summary

The student has implemented correct leap year logic with a clean function structure, but the submission does not fully meet the assignment requirements as it lacks the required input/output handling. The code correctly implements the leap year algorithm and demonstrates good programming practices, but misses the core requirement of reading user input and producing the exact output format specified.

Strengths

- No strengths identified.

Improvement Areas

- No improvement areas identified.

Recommendations

Immediate Next Steps

- None provided.

Longer-Term Focus
